

San Diego Ship Modelers' Guild

Volume 4 Number 6

June, 17, 1980

Notes from the may Meeting

John Woodard recieved such a strong response to his inquiry of membership interest in a live steam coarse that he will begin the coarse one half hour before each regular meeting begining in August. John is a Naval academy graduate (1960) and holds a degree in engineering. He has served in the engineering departments of two nuclear ships, USS Bainbridge (DLGN-25) and USS Enterprise (CVAN-65), so he is well versed in the workings of steam propulsion. John plans to cover everything from basic theory to practical application in prototype and modeling so plan ahead. The San Diego Shipmodelers Guild Third Annual Radio Control Regatta will be September 27th and 28th so start spruceing up your entry.

Bob Crawford gave a demonstration of finishing techniques and did a supurb job of it, if I do say so myself. By the way, the tape I was refering to is called Scotch Brand Fine Line tape Number 218. It's the best masking tape I've ever found and is available in most Auto body and fender repair supply stores.

June Meeting

Al L'hreux and Phil Hadley will be giving a demonstration on p'ex-i-glass uses in modeling. They have extensively use plex in the Fleet Type submarines and will share the knowledge the have aquired through their building.

July Meeting

Next months meeting will be our annual summer bash aboard the Star of India with lots of the bubbly so plan ahead .

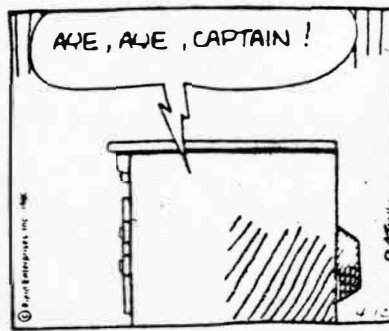

Bring a Model

Model attendance has been down the last few meetings and it always is encouraging to members to see how fast or slow others are making progress. I also is enlightening to see how someone has overcome some obstickle or applied some technique that may be useful. Let's share the wealth, bring a Model.

LA Regatta/picnic

There is a host of folks to the north of our fair city with an interest in models how have invited our members to partake in a day of ship model joy, so gather some friends and a few models and pool it on up to pond. See attached sheet.

FUNKY WINKERBEAN

GUILDMASTER'S CORNER

CALIFORNIA CRUISE

The time of the year is upon us once again when the weather warms and thoughts of the sea begin stirring. Summer is rapidly approaching and you are asking yourself: "What can I do with myself the evening of Saturday, August 23rd, at 1800 hrs (6:00 PM)?"

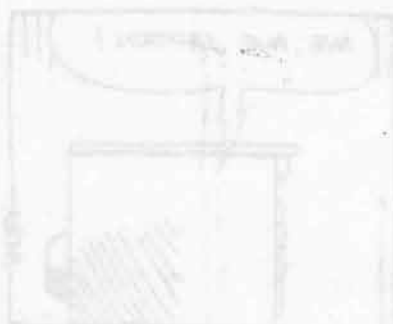

Fear not mates, arrangements have been made! Once again the barkentine CALIFORNIA will set sail on a fantastic journey: Through the treacherous straits of the Commercial Basin; running before the wind down the awe inspiring harbor of San Diego; past the elegant restaurant Reuben's, crossing the bow of the REUBEN E. LEE; tacking into the infamous waters of North Island; daring the soaring ramparts of the Coronado Bridge; gliding into peaceful Glorietta Bay before returning tired and worn to the safe protection of Harbor Island and the Sheraton Harbor Island Hotel dock.

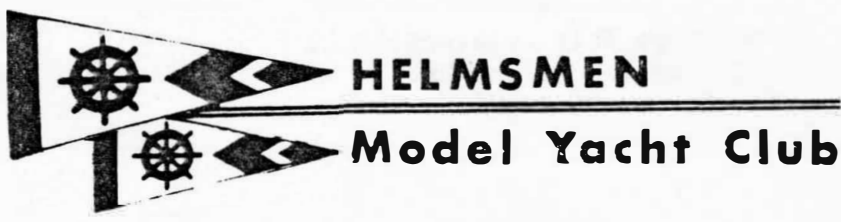

Sound impossible? Not at all! This entire three hour adventure will be yours for the measely pittance of only \$13.00 per person (sorry, inflation, you know!) As with previous trips, however, 20% of the receipts will be donated to the Maritime Museum in the name of the CALIFORNIA and the Ship Modeler's Guild. Please make your reservations early to insure your spot on the ship. As usual, this will be a pot-luck dinner; you will be informed what to bring when you sign up. Reservations will be taken at the meeting, payment in advance. Remember, no refunds! If for any reason you can't make the cruise you will have to sell your reservations yourself (hopefully there will be a waiting list.) One more thing--please do not bring your own liquor or wine aboard, it could cost the CALIFORNIA their liquor license.

LONG BEACH PICNIC

As can be seen by the flyer elsewhere in the newsletter, there will be a ship modeler's picnic Sunday, June 29, at the El Dorado Park in Long Beach. This annual affair is put together by the Ship Modelers Association strictly for fun. There is no competition involved, just a get-together of ship modelers to have a good time. If enough people are interested, let me know at the meeting and we will work out car-pools and a caravan. It would sure be great to see a good turn-out. (I don't think static models would go unnotice either!) Let's show the Fullerton group that we do have ship modeling activity in San Diego.

See you all at the meeting.

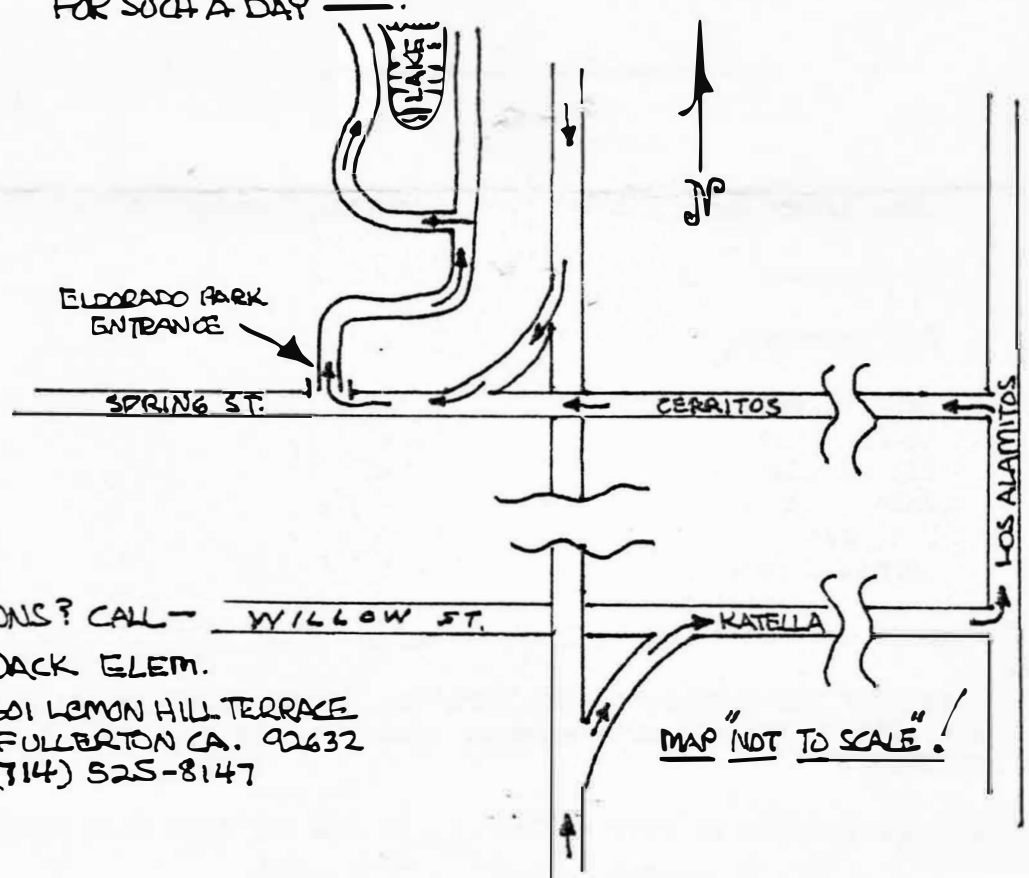

REGATTA ○ PICNIC ○

WHERE • ELDORADO PARK LONG BEACH CA.

WHEN • SUNDAY JUNE 29th 1980 ALL DAY

BRING YOUR PICNIC, FRIENDS AND BOATS, "MAYBE EVEN" RUBBER DUCKS OR A POINTED SHINGLE! (SORRY, PARK RULES FORBID GAS MODELS.
