FOR THE FACILITIES THEY PROVIDE
US.

SCHEDULE OF ACTIVITIES

GUILD MEETING THIRD THURSDAY
OF THE MONTH
7:00 PM SOCIAL
7:30 PM MEETING

There was an old man from Nantucket
Who kept all his cash in a bucket;
But his daughter, named Nan,
Ran away with a man --
And as for the bucket, Nantucket.

NOW HEAR THIS!!!

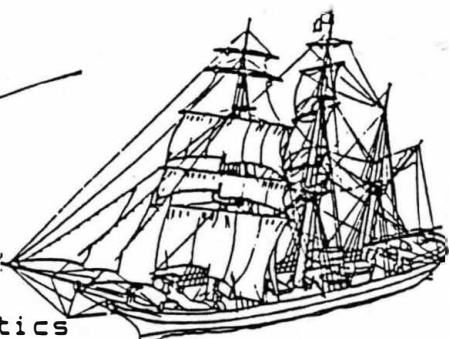

The regatta went a long quite well with one exception. The Regatta Committee had decided to have the night run at the pond and not at the Princes Hotel. This was the consensus of the five committee members as a result of their own surveys, lack of response from any of the club members from the news letter articles, and the attitude of "We don't want to talk about Regatta business at the meetings, Leave it up to the Regatta committee" or words to that effect.

I consider what transpired at the pond to be an undermining of the Regatta's Committee members collective decision and that of the guild. Also it can be interpreted as another way to make the Regattas look bad and to sway people's opinion against having them. It was not called for but fits the dysfunctional format that the Guild is in. The last few years have seen a lot of this and it has resulted in a few lost members. This can also be the reason why there are so few that want to volunteer for any position because when they do and make a decision they are chastised for anything they do.

D. M. LePage
Regatta Commodore

3. Dan LePage / USS Ranger CV 61

Electric Civilian (Static)

1. Doug Wripley / Booth Bay Lobster

2. Doug Smay / SS Savannah

3. Bill Misner / Ducky II

REMEMBER

There are no right or wrong ways to build a model. Each of us does what we do for our own reasons and to whatever level or standard we choose. However, to master anything, one has to work at it, invariably putting in long, hard hours, constantly experimenting and trying ideas new to us, even though they may be old hat to the rest of the world. Model building may be likened to learning to swim: you have to get into the water. With model building, you have to build. That means getting out of the armchair. Push your capabilities somewhat, but not to the point that you are constantly frustrated by a lack of skill or knowledge. Set your sights a little high, but not too high. Change your goals as you progress. Remember, it's supposed to be fun.

Happy modeling!

Garage Sale of Ship Kits

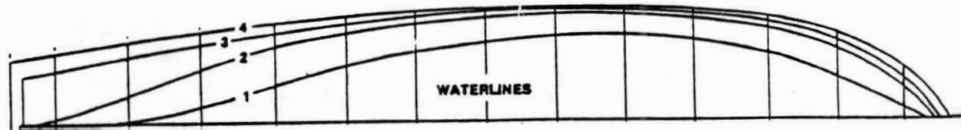

The following list of complete ship kits is for sale at reduced prices - All kits are below list price. This offer is open to all club members. First come, first serve as there is only one of each model available, since I am selling some of my kits at reduced prices. Many of these kits are no longer available. Most of them are first run kits.

Those wishing to purchase a kit please contact Don Dressel at home in the evening at (redacted/). Arrangements will be made to bring the kit model to the next club meeting.

Models available are:

1. ROYAL LOUIS - French first rank warship of 1780. This 120 gun ship kit is by Mamoli - scale 1:90 - length 43" - Height 33". Model Expo price \$499.99
Sale price \$400.00
2. H.M.S. PRINCE - English first rank warship of 1670. This 100 gun ship of the line kit is by Amati - scale 1:75 - length 45" - Height 46". Model Expo price \$799.99
Sale price \$550.00
3. H.M.S. AJAX - English frigate built in 1765. This 38-gun frigate kit is by Euro - scale 1:50 - length 30" - height 29". Model Expo price currently not available - sold for \$229.00 in 1983 Expo catalog.
Sale price \$200.00
4. H.M.S. ROYAL CAROLINE - very ornate English yacht of 1749 built for King George II. This yacht kit is by Pan Art before being taken over by Mantua - scale 1:47 - length 34". Current Model Expo price for Mantua kit is \$319.99. Quality of Mantua fittings may not be as good as the quality of the fittings in this original Pan Art Kit.
Sale price \$250.00
5. WAPPEN VON HAMBURG - Dutch built warship - extremely fine kit - only kit of which the gratings on the upper deck lift off to expose the lower gundeck - finest fittings of any kit - Movo kit no longer available (Movo went out of business) - now marketed by Corel - This kit is an original Movo kit! - scale 1:50 - Length 43" - height 36".
